

ABK-NET General Assembly

ABK-Net is a community run organisation with its main purpose being providing ABK with cheap internet! For us to continue support this arrangement we need new volunteers to help develop and maintain the network.

We are a group of volunteers from ABK who meet the first Tuesday every month (just like all the other initiatives here), where we discuss and work on the network, the residence website, and other technical projects.

Apart from the general network administrative work, we are actively using technologies such as Nix, Python, React, and Git. As we do not expect anyone to have experience in these technologies, we provide good opportunities to be part of exciting projects. For example, in the last year we have:

- Upgraded the internet distributing devices
- Started remaking the residence website
- Provided internet support to the residents of ABK
- Initiated talks in renovating the residence internet infrastructure

We are especially looking for people who are interested in or have skills such as:

- financial management
- team leadership
- privacy policies
- website design
- network administration

If you find parts of this interesting, do not hesitate to take part in the general assembly on Tuesday the 4th of March at 18:30 in the common house. The agenda is as follows:

- Choice of conductor and minute taker.
- Presentation of ABK-Net
- Overview of the annual budget
- Election for the board
- Other matters

All attendants will get a free beer or soda as well as pizza, so if you plan to attend please send us a message, so we can ensure the amount beforehand.

If you have any questions, do not hesitate to ask us at Facebook or at net@abk-aalborg.dk.

Jonas Terp
Chairman of ABK-NET
